GENERATOR

Safety

Avoid deadly backfeed and keep
lineworkers safe.

Learn how to **safely connect**
to your portable
generator at:

 **Safe
Electricity.org**

 **Never plug a generator into a wall outlet. A qualified electrician should install it with a transfer switch to help prevent backfeed, which can send electricity onto utility equipment and endanger lineworkers or others near downed lines.**

 **Portable generators can be helpful during long outages, but they must be used safely. Improper use can lead to electric shock, fire or deadly carbon monoxide poisoning.**

ANNUAL POLE-TOP RESCUE

Pole-top rescue is necessary when something has happened that has caused a line worker to become unconscious, unresponsive, or otherwise unable to descend the pole on their own.

Once a year operations goes through pole-top rescue training so in the event that if a real emergency arises the crews will be more confident in their ability doing so.

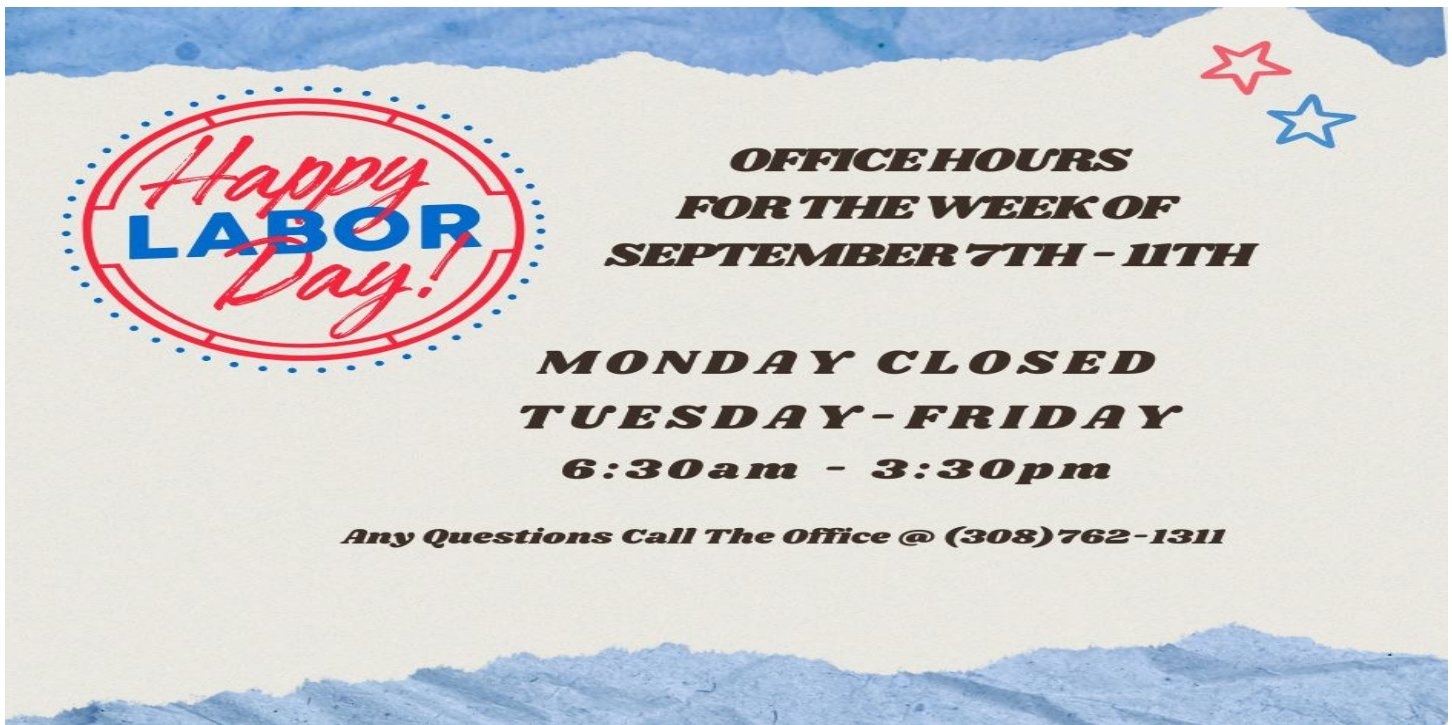

BOX BUTTE COUNTY FAIR ANNUAL

★ RUBBER CHECK RACE

Stars Stripes &
COUNTY FAIR NIGHTS

Notes From Load Management

All participants in Load Management can be controlled every day for the month of September from 12:35pm to 9pm. There is no control on Sundays and Holidays. Groups will be controlled as needed. We do not anticipate control days to extend past September 15.

Be sure to look over your disconnect boxes and well panels to ensure safe and proper operation. If you are an irrigator with PREMA and have not participated in Load Management in the past, information is available at www.prema.coop under the irrigation tab or by calling the office at 308-762-1311.

Serving Arthur, Box Butte, Cherry, Dawes, Garden, Grant, Hooker,
