

Attention 2023 PREMA Irrigators

2023 Load Management Program Information

- The Load Management program is limited to those services that can receive the TWACS signal.
- If you are signing up as the landowner, please make sure that your operator or tenant is aware of the program.
- When you sign up for Load Management, PREMA needs the following information: operator or tenant and meter number or account number.
- Irrigators with more than three pivots will have pivots split into two groups.
- The Everyday Rate Group will normally be the last group to be controlled when PREMA is in active control status.
- New signups (pivot without load control switch) will be limited to the first 50 to sign up.

Sign Up

Sign up is **required** again this year for the 2023 Load Management Program. If you are interested in participating in this program, you can call the office at 308-762-1311, send email to tims@prema.coop or personally stop in and speak with the Load Management Coordinator, Tim Sherlock.

**Load Management
Sign Up Deadline Is
Friday, March 3rd**

Tampering

If you are the owner or operator of an irrigation service on which a load control switch is installed, keep in mind you are responsible for making sure no one tampers with the load control switch.

The load control switches are operated through the TWACS system with the capability of two-way communication to verify that the switch is operable.
